ceramica

Michelangelo Buonarroti is one of the greatest and most important artists in the history of world art. He was an Italian sculptor, painter, architect and poet. Angelo is an Iranian/Italian ceramic brand and actually tries to create a bridge between these two Iranian and Italian cultures. Our designs are inspired by natural surfaces and textures, classic and contemporary art, cultural symbols and the latest trends. Our goal is to increase market standards by producing new, high-quality and elegant ceramics so that the living environment can be functional and beautiful.
